

Apex Testing

Create Test Data for Apex Tests

RandomContactFactory Code:

```
public class RandomContactFactory {  
  
    public static List<Contact> generateRandomContacts(Integer numcnt,  
string lastname){  
        List<Contact> contacts = new List<Contact>();  
        for(Integer i=0;i<numcnt;i++){  
            Contact cnt = new Contact(FirstName = 'Test'+i, LastName =  
lastname);  
            contacts.add(cnt);  
        }  
        return contacts;  
    }  
}
```
